

Microbiology Table of Contents

Introduction:

- Lab 1: The Scientific Method
- Lab 2: Writing a Lab Report
- Lab 3: Data Measurement

Fundamentals of Microbiology:

- Lab 4: Introduction to Culturing and Aseptic Technique
- Lab 5: Structure and Microscopy
- Lab 6: Growth of Microorganisms
- Lab 7: Selective Media and Agar
- Lab 8: Differential Media and Tests
- Lab 9: Quantitation of Cultured Microorganisms
- Lab 10: Eukaryotic Microbes, Parasitology, and Viruses

Applied Microbiology:

- Lab 11: Food Microbiology
- Lab 12: Environmental Biology
- Lab 13: Microbial Genetics and Genetic Engineering
