Iron (III) Nitrate, 9-Hydrate

Section 1  Product Description

Product Name: Iron (III) Nitrate, 9-Hydrate
Recommended Use: Science education applications
Synonyms: Nitric Acid, Iron (3+) Salt; Iron (III) Nitrate, Nonahydrate; Iron Nitrate
Distributor: Carolina Biological Supply Company
2700 York Road, Burlington, NC 27215
1-800-227-1150

Chemical Information:
800-227-1150 (8am-5pm (ET) M-F)
Chemtrec:
800-424-9300 (Transportation Spill Response 24 hours)

Section 2  Hazard Identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

WARNING

May intensify fire; oxidizer. Causes skin irritation. Causes serious eye irritation. May cause respiratory irritation.

GHS Classification:
Skin Corrosion/Irritation Category 2, Serious Eye Damage/Eye Irritation Category 2A, Oxidizing Solid Category 3, Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 3

Acute Toxicity Dermal Contains
100 % of the mixture consists of ingredient(s) of unknown toxicity

Acute Toxicity Inhalation Gas
100 % of the mixture consists of ingredient(s) of unknown toxicity

Acute Toxicity Inhalation Vapor
100 % of the mixture consists of ingredient(s) of unknown toxicity

Acute Toxicity Inhalation Dust/Mist
100 % of the mixture consists of ingredient(s) of unknown toxicity

Section 3  Composition / Information on Ingredients

Chemical Name: Iron (III) Nitrate, 9-Hydrate
CAS #: 7782-61-8
%: 100

Section 4  First Aid Measures

Emergency and First Aid Procedures
Inhalation: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Skin Contact: IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.
Ingestion: If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

Section 5  Firefighting Procedures
Extinguishing Media: Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid.

Fire Fighting Methods and Protection: Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.

Fire and/or Explosion Hazards: Product is a strong oxidizer. Contact with combustible material may cause fire. Explosive when mixed with combustible material. Risk of explosion if heated under confinement.

Hazardous Combustion Products: Boron Compounds, Sulfur Oxides, Nitrogen oxides, Metal Oxides,

Section 6 Spill or Leak Procedures

Steps to Take in Case Material Is Released or Spilled: Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill. Ventilate the contaminated area. Isolate area. Keep unnecessary personnel away. Avoid the generation of dusts during clean-up. Avoid creating and inhaling dust. Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation. Vacuum or sweep up material and place in a disposal container Reduce airborne dust and prevent scattering by moistening with water. Use an inert absorbent such as sand or vermiculite. Place in properly labeled closed container. Do not allow the spilled product to enter public drainage system or open waterways.

Section 7 Handling and Storage

Handling: Keep away from heat/sparks/open flames/hot surfaces. – No smoking. Keep/Store away from clothing/…/combustible materials. Take any precaution to avoid mixing with combustibles. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Keep container tightly closed in a cool, well-ventilated place. This material should be kept in an area suitable for the storage of flammable liquids. Store away from oxidizing agents, sparks and flame. Keep away from combustible material.

Storage: Store in a well-ventilated place. Keep container tightly closed. Store locked up. Keep container tightly closed in a cool, well-ventilated place.

Storage Code: Yellow - Reactive. Store separate and away from incompatible material.

Section 8 Protection Information

Control Parameters

Engineering Measures: Local exhaust ventilation or other engineering controls are normally required when handling or using this product to avoid overexposure.

Personal Protective Equipment (PPE):

Respiratory Protection: No respiratory protection required under normal conditions of use. Wear a NIOSH approved respirator if levels above the exposure limits are possible.

Respirator Type(s): NIOSH approved air purifying respirator with dust/mist filter.

Eye Protection: Wear chemical splash goggles when handling this product. Have an eye wash station available.

Skin Protection: Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Where use can result in skin contact, practice good personal hygiene. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly.

Gloves: Nitrile
Section 9

Physical Data

- **Formula:** Fe(NO₃)₃ * 9H₂O
- **Molecular Weight:** 404.00
- **Appearance:** Grey Purple Solid
- **Odor:** No data available
- **Odor Threshold:** No data available
- **pH:** No data available
- **Melting Point:** 47 °C
- **Boiling Point:** 100 °C
- **Flash Point:** No data available
- **Flammable Limits in Air:** N/A
- **Vapor Pressure:** N/A
- **Evaporation Rate (BuAc=1):** N/A
- **Vapor Density (Air=1):** 14.0
- **Specific Gravity:** 1.684
- **Solubility in Water:** Appreciable (>10%)
- **Log Pow (calculated):** N/A
- **Autoignition Temperature:** N/A
- **Decomposition Temperature:** N/A
- **Viscosity:** N/A
- **Percent Volatile by Volume:** 0% at (21 °C)

Section 10

Reactivity Data

- **Reactivity:** No data available
- **Chemical Stability:** Stable under normal conditions.
- **Conditions to Avoid:** None known.
- **Incompatible Materials:** Metals (powdered), Organics,
- **Hazardous Decomposition Products:** Metal Oxides, Nitrogen oxides, Sulfur Oxides, Boron Compounds
- **Hazardous Polymerization:** Will not occur

Section 11

Toxicity Data

- **Routes of Entry:** Inhalation, ingestion, eye or skin contact.
- **Symptoms (Acute):** Eye disorders, Respiratory disorders, Impaired Kidney Function, Liver disorders
- **Delayed Effects:** No data available

Acute Toxicity:

Chronic Effects:

- **Mutagenicity:** No evidence of a mutagenic effect.
- **Teratogenicity:** No evidence of a teratogenic effect (birth defect).
- **Sensitization:** No evidence of a sensitization effect.
- **Reproductive:** No evidence of negative reproductive effects.
- **Target Organ Effects:**
  - **Acute:** See Section 2
  - **Chronic:** Not listed as a carcinogen by IARC, NTP or OSHA.

Section 12

Ecological Data

- **Overview:** Slight ecological hazard. In high concentrations, this product may be dangerous to plants and/or wildlife. Keep out of waterways.
- **Mobility:** No data
- **Persistence:** No data
- **Bioaccumulation:** No data
- **Degradability:** No data
- **Other Adverse Effects:** No data

Section 13

Disposal Information

- **Disposal Methods:** Dispose in accordance with all applicable Federal, State and Local regulations. Always contact a permitted waste disposer (TSD) to assure compliance.
- **Waste Disposal Code(s):** Not Determined
Section 14 Transport Information

Ground - DOT Proper Shipping Name:
UN1466, Ferric Nitrate, 5.1, III, 12 kg

Air - IATA Proper Shipping Name:
UN number: 1466 Class: 5.1 Packing group: III Proper shipping name: Ferric nitrate

Section 15 Regulatory Information

TSCA Status: A component (or components) of this product is not listed on the TSCA Inventory of Existing Chemical Substances. Product is for research and development use only.
